

WORK STATION

TABLES

BUILT AROUND YOUR PEOPLE.

Allied work station tables are custom engineered to improve ergonomics, increase productivity, and support your manufacturing and assembly processes. From simple work benches to fully integrated work cells, our solutions are designed around your people, your tools, and your application.

SAFER.
SMARTER.
STRONGER.
TOGETHER.

WHAT IT DOES

Allied work station tables provide a dedicated, organized, and ergonomic workspace for assembly, testing, repair, and manufacturing operations. Each station is designed to fit your process, with options for tool integration, material handling, power and data, lighting, and custom accessories.

Whether you need a simple adjustable work bench or a fully integrated work cell, Allied delivers flexible solutions that help your team work more efficiently, safely, and comfortably.

**STANDARD
WORK STATIONS**

**INTEGRATED
WORK CELLS**

KEY BENEFITS

Improved Ergonomics
Adjustable heights and custom configurations to fit your team.

Increased Productivity
Keeps tools and materials organized and within reach.

Enhanced Safety
Reduces strain and improves operator comfort.

Custom Configuration
Designed to match your exact process and application needs.

Tool Integration
Supports pneumatic, electric, and torque tools with proper mounting and cable management.

Scalable Solutions
From single benches to fully automated work cells.

COMMON APPLICATIONS

AUTOMOTIVE & TRANSPORTATION
Assembly, trim, and sub-assembly operations.

AEROSPACE & DEFENSE
Component assembly, testing, and inspection work stations.

INDUSTRIAL MANUFACTURING
General assembly, rework, and kitting operations.

ELECTRONICS
Precision assembly, testing, and repair.

MEDICAL DEVICE & PHARMA
Clean, ergonomic work stations for regulated environments.

THE ALLIED ADVANTAGE

From application expertise to complete implementation.

Allied combines engineering, manufacturing, integration, and ongoing service to deliver work station solutions that fit the way you work. Our team supports custom application development, testing, and installation—backed by our Torque Lab and real-world experience.

From concept to installation, we engineer solutions that fit the way you work.

REAL
CHALLENGES.
ENGINEERED
SOLUTIONS.
